

# This year's content streams

## Main Stream: Financial Management

Sessions in the main stream will cover core accounting and finance topics such as *SORP*, *Tax update*, *Improving accounts*, *Financial sustainability*, *Controls in a digital world*.

## Beyond Finance

Stepping beyond the immediate remit of accounting, these sessions will help you make sense of the environment your organisation and other charities operates in. Topics may include *Policy update*, *Gold standard governance*, *Operational Efficiencies*.

## Management & Leadership Skills

Are you in a senior-level finance/accounting role or looking to move into one? Sessions in this stream will equip you with the skills you need to thrive and progress in your role, including *Moving into Management*, *Emotional Intelligence for Managers and Leaders*, *Influencing up the line*.

## Session types

### Workshops

Dig deeper into a topic during these two-hour practical workshops. These sessions will cover topics more in-depth and typically include some form of group work, interactive discussions or similar.

### Seminars

These compact one-hour sessions will provide you all the information and latest updates on a range of topics, including the latest legal and regulatory changes.

### Bonus learning session

Do you often find yourself not asking all the questions you have because they seem too specific to your organisation and not relevant to everyone else? Catch the trainers from previous seminars and workshops during these bonus learning sessions and discuss the questions you want answered in small groups.

### Plenary sessions

Take time to step back from everyday tasks and think bigger. Join our inspirational keynote speakers and charity finance leaders to get a fresh perspective and become a better finance leader.
