## About Me OR Personal Profile

This is usually a paragraph which quantifies and highlights your key experience. This can be customized to the role and should showcase HOW and WHY you're different from other candidates.

## Work/Professional Experience

Standard formatting for listing your work/professional experience. Hiring managers care more about your title & career progression than they do the company which is why the job title comes first.

## Public Speaking Engagements

I have listed some examples below. Key here is to name the place and to roughly how large of an audience. Maybe also mention if it was tough to get selected to speak.

- Experienced public speaker:
  - Selected to give an oral presentation at the North American Refugee Health Conference 2015
  - The Canadian Federation of University Women's Annual General Meeting 2015
  - Thank you speaker for HRH Prince Edward The Earl of Wessex to an audience of over 300 people

Depending on how long this section is you can also add in more details about the Award or out of how many people you were selected.
